PROFESSIONAL PROFILE

Master of Public Health candidate at Morehouse School of Medicine and aspiring physician with experience in patient-facing care, clinical research, community health, data analysis, and business operations. Her work with a mobile care organization and community partners focuses on access to care, stakeholder needs, and practical improvements to service delivery. She is interested in chronic disease prevention and in developing a clinical practice that connects preventive care with the circumstances shaping patients' health.

EDUCATION

Master of Public Health | Expected May 2027

Morehouse School of Medicine | Atlanta, GA | GPA: 3.93

Bachelor of Science, Pre-Professional Chemistry; Minor in Biology | May 2020

Xavier University of Louisiana | New Orleans, LA

PUBLIC HEALTH PRACTICE AND RESEARCH EXPERIENCE

Community Assessment Project Member, Phase 2 | 2026–Present

Community Whole Health Clinic | Morehouse School of Medicine community partnership

- Participate in Phase 2 planning for a community engagement summary informed by stakeholder interviews and focus groups.
- Develop questions and prepare to facilitate two focus groups (volunteers and board members) and 7–9 interviews with community organization partners.

Public Health Intern, Applied Practice Experience | Summer 2026

Wellness Equity Alliance | California

- Co-led an Enhanced Care Management outreach team supporting access to mobile primary care and behavioral health services for Medicaid populations; coordinated workflows and monitored outreach records.
- Developed reporting and analytics products spanning outreach performance, organizational communications, and geographic access to STI services.
- Created community-facing extreme heat education materials and revised content in response to health literacy and regional context feedback.

Clinical Research Intern | Dec 2023–Jun 2024

Eagle Owl Clinical Research and Consulting | Mableton, GA

- Supported clinical research staff across 2–3 active study sites, reviewing study records, informed consent documentation, and electronic clinical data for completeness and protocol compliance.
- Assisted with trial documentation and monitoring activities under Good Clinical Practice requirements.

Orthopedic Clinical Intern | Jun–Jul 2017

Resurgens Orthopaedics | Emory Hospital | Dr. Raines

- Completed a two-week internship under Dr. Raines, gaining exposure to orthopedic care and clinical practice workflows

RELEVANT APPLIED PRACTICE PROJECTS

Enhanced Care Management Outreach Intelligence System | 2026

Wellness Equity Alliance

- Designed a standardized workflow linking staff data entry, KPI calculations, and a Looker Studio dashboard to monitor call volume, documentation, successful contact, and patient interest.
- Prepared a technical and operational guide, data definitions, and reporting structure to support consistent outreach monitoring.

Arizona STI Disease Burden and Healthcare Access Dashboard | 2026

Wellness Equity Alliance

- Built an ArcGIS dashboard combining STI burden, social vulnerability indicators, and healthcare facility locations; added county and map selectors to support geographic exploration.

HIV Street Medicine Jurisdictional Research | 2026

Wellness Equity Alliance

- Researched HIV Street medicine and healthcare access in the assigned jurisdictions of Pima County, Arizona; Multnomah County, Oregon; and the Oklahoma State Health Department.

LinkedIn Communications Analytics | 2026

Wellness Equity Alliance

- Analyzed more than 100 posts and summarized impressions, clicks, and content trends with graphs and a presentation for organizational stakeholders.

RELEVANT ACADEMIC RESEARCH AND DATA PROJECTS

Age at First Live Birth and Socioeconomic Status Among U.S. Women | 2026

MPH 716 R and Health Sciences | Morehouse School of Medicine

- Analyzed NHANES 2009–2012 data in R (n=1,737) using descriptive statistics, visualization, linear regression, and logistic regression.
- Found that later age at first live birth was associated with higher poverty income ratio and lower adjusted odds of poverty; interpreted results within the limits of a cross-sectional analysis.

Factors Associated with PSA Testing Among U.S. Men Aged 40 and Older | 2026

MPH 506 Research Methods | Morehouse School of Medicine

- Developed a research proposal comparing self-reported prostate-specific antigen testing in 2014 and 2024 Behavioral Risk Factor Surveillance System data, with attention to sociodemographic differences.

Life Expectancy in Benin and the United States | 2026

MPH 716 R and Health Sciences | Morehouse School of Medicine

- Used the Gapminder data set and R to compare 1952–2007 life expectancy trends and the relationship between GDP per capita and life expectancy; documented data limitations.

Structural Bias and Social Inequities in New Orleans | 2025

Fundamentals of Public Health | Morehouse School of Medicine

- Wrote a course paper examining post-Katrina housing and economic inequities, cardiovascular health, and opportunities for prevention in New Orleans.

NPU-T Community Needs Assessment and Windshield Survey | 2025

Fundamentals of Public Health | Morehouse School of Medicine

- Documented neighborhood conditions in southwest Atlanta through a windshield survey, including housing, transportation, safety, green space, and access to community resources; contributed to a group presentation.

Photochemical Synthesis of Benzopinacolone | 2019

Xavier University of Louisiana

- Conducted a chemistry capstone project, analyzed experimental outcomes, and presented findings in a report and oral presentation.

ADDITIONAL PROFESSIONAL EXPERIENCE

Executive Assistant | May 2023–Present

Newton Logistics LLC | Lithonia, GA

- Coordinate scheduling and communications for a fleet supporting approximately eight drivers; maintain compliance, audit, onboarding, and maintenance records.

Business Manager | Jan 2020–Present

Sweet Cheeks Custom Cakes and Catering | Lithonia, GA

- Manage order fulfillment, finance, vendors, marketing, and e-commerce operations; hire and train a three-person team and coordinate approximately 20 orders monthly.

Specimen Collector | Nov 2024–Sep 2025

Turner Medical Screening LLC | Decatur, GA

- Collected and processed biological specimens while maintaining accurate records and following quality and safety protocols.

Medical Scribe | Nov 2022–Apr 2023

GoForward | Atlanta, GA

- Documented approximately 10–20 patient encounters per shift in the electronic health record and supported clinical team workflows.

Staff Member, Seasonal Employee | Jun 9–Aug 5, 2015

Radiant Women's Health

- Managed patient check-in and checkout, appointments, insurance and copay verification, payments, phone calls, and uploads to patient charts.
- Assisted nurses with prescription requests and hospital calls and periodically assisted and shadowed physicians.
